INTRODUCTION

The Heart to Heart with Orangutans program is a unique conservation initiative run by SARAWAK FORESTRY. It is a one-day program which allows participants to actively participate in orangutans rehabilitation at Matang Wildlife Centre and Semenggoh Wildlife Centre.

Participants will have a chance to learn from a dedicated team of experts from Sarawak Forestry about the challenges of orangutan rehabilitation and related work at the centres. At the end of the program, all participants will be given a certificate of participation to acknowledge their contributions to Sarawak's orangutan rehabilitation program.
